

Glasgow Ice Centre

forging a future for ice sports in Glasgow

Our Vision

- Build a dynamic multi-sport ice facility in Glasgow
- A new home for curling and skating in Scotland
- Venue for a world-class Curling Museum
- Accessible and inclusive for all
- Attracting a wide range of new members

First Steps

The Board of Trustees proposes that we conduct a full-scale feasibility study at this initial stage. A feasibility study is a key tool to make informed and strategic investment decisions from the planning stages to the successful delivery of a new ice sports venue in Glasgow.

What company is conducting this study?

In Partnership With (IPW) will conduct this study on behalf of the Glasgow Ice Centre. As specialist venue consultants, IPW have a strong track record with building multi-sport facilities, such as the London 2012 Olympic venues and the new Cambridge Ice Arena (which included Curling and Skating).

Visit www.ipw3.com to view their projects.

Fundraising

£40,000

A **Fighting Fund** of £40,000 will cover the costs and expenses of the Feasibility Study.

If each club pulled together to donate **£250**, we could launch this critical study in the very near future!

£250

You don't have to wait for your club to make a donation - all funds are gratefully accepted by bank transfer to:

Braehead Curling Development Group
Sort Code: 09-01-28
Account Number: 36846109
